ABOUT US

Negen Diagnostics stands as a pioneering referral lab and diagnostic centre, dedicated to serving the healthcare needs of Andhra Pradesh. Founded with the visionary goal of bridging the gap between advanced diagnostic services and the region's medical professionals, we are the first of our kind in the state, ensuring that doctors and hospitals have direct access to a comprehensive range of specialty diagnostic services. Our establishment is more than just a lab; it's a promise to deliver unparalleled accuracy and efficiency in healthcare diagnostics.

At Negen Diagnostics, we are committed to revolutionizing the way healthcare is delivered. Understanding the critical role of timely and precise diagnostics in medical treatment, we have invested in UpToDate technology, advanced equipment and a team of expert professionals. This means whether it's routine testing or complex genetic analyses, Negen Diagnostics delivers with unmatched accuracy and speed. This commitment ensures that healthcare providers can make informed decisions swiftly, enhancing patient care and outcomes, which is critical for health-care decision making.

With a patient-centric approach, we are dedicated to ensuring that every test we conduct is not just a procedure, but a step towards a healthier future for the people. Negen Diagnostics is your trusted partner in healthcare, where science meets compassion to transform lives in an ethical manner.

VISION & MISSION

When it comes to health and wellness there is no room for compromise; We at Negen aim to uphold the highest possible standards in the field of diagnostics and wellness. With a team comprised of dedicated technical staff, skilful scientists, insightful clinicians we aspire to redefine the boundaries in the field of speciality labs and genomics. With moral and ethical values embedded in our DNA, with a lab equipped with the world's best brands we ensure each test delivered has significant impact on individual's health or wellness.

DEDICATION & CARE

Negen Diagnostics is devoted to offering the best in personalized healthcare. We go beyond basic diagnosis, offering practical solutions that empower patients to make informed decisions about their health. Whether addressing specific health concerns or striving for overall well-being, we stand as a trusted partner, committed to delivering precision and accuracy in every step of the health journey. Our unwavering commitment to precision and excellence ensures that every test delivers reliable and actionable results, guaranteeing the highest standard of care for all our patients.

World's best brands
at your service in Negen

CORE

RESEARCH

Our dedicated team of scientists, researchers, and doctors are at the forefront of genetic and molecular biology research. By continuously pushing boundaries and integrating the world's latest advancements, we deliver state-of-the-art diagnostic solutions to our patients and clients."

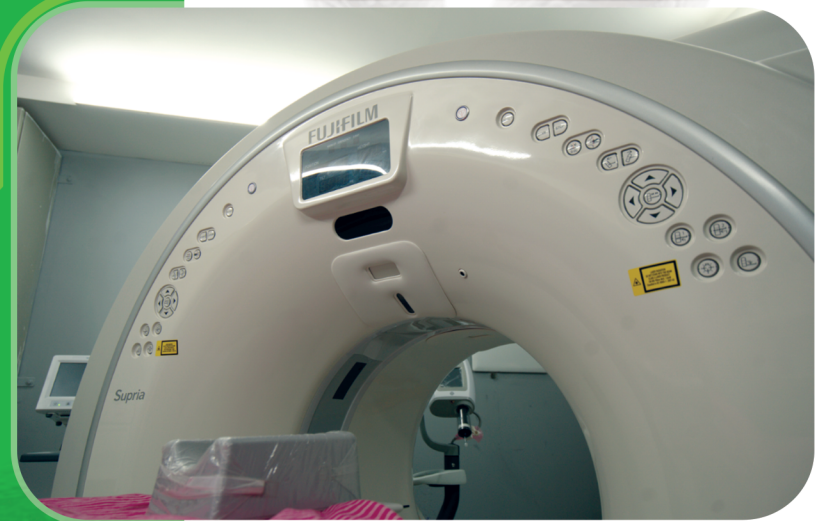

INNOVATION

"Innovation drives everything we do. From developing new diagnostic tests to improving existing methodologies, our innovative spirit ensures we stay ahead in the field of diagnostics. This commitment to innovation empower our clients with the latest and most effective diagnostic solutions."

TECHNOLOGY

"We leverage state-of-the-art technology and equipment to deliver accurate and reliable diagnostic services. Our investment in the latest tools ensures we provide the best possible outcomes for any give test."

VALUES

ANTENATAL & NEW BORN SCREEN

Approved by The Fetal Medicine Foundation (FMF)
DELFIA[®]XPRESS

Victor 2D

New Born Screening - Dried Blood Spot (NBS)

- IT - Quad
- IT - Double
- IT - Triple
- PAPP-A + BHCG + AFP + PIGF
- PAPP-A + BHCG
- PAPP-A + BHCG + PIGF

PRECISION

"Precision is paramount in our diagnostics. We ensure that every test and result is handled with the utmost accuracy, providing reliable information for healthcare decisions."

RADIOLOGY

- Advanced Dexa Scan with visceral fat analysis
- Fujifilm (Hitachi) CT Scan with calcium score
- Siemens Mammomat: Digital Mammography

WELLNESS

"We understand the importance of timely results. Our entire process, from sample collection to result delivery, is designed to ensure exceptional turnaround times. Leveraging advanced technology and streamlined workflows, we deliver fast and accurate diagnostics, significantly

MICROBIOLOGY

- BioFire
- Maestria Software
- Cepheid (GeneXpert)
- MGIT (Automated Tuberculous Culture)
- Automated BACT/ALERT[®] 3D

LOW TURNAROUND TIME (TAT)

"At Negen Diagnostics, the wellness of our patients is our top priority. Our commitment to research, technology, innovation, precision, and low turnaround time ensures comprehensive services that promote health and well-being, leading to better healthcare outcomes."

Genetics &

"Each human body and mind are dictated by their own 25,000 genes, unique to each individual on this planet. Not only are these genes the reason behind many health problems, but they also hold the solutions. With genetics taking the driving seat in the upcoming revolution of personalized medicine, it is crucial to decode this abundant and precious genetic information for the wellness of each person. As numerous advances unlock new avenues of treatment by deciphering the genetic potential of individuals, staying ahead in this course is imperative.

At Negen Diagnostics, our team of experienced doctors and skillful scientists work with utmost care and precision to ensure you get the best from your genes. Our research team continuously strives to implement the latest advances in the field, delivering them to people through informed healthcare professionals and institutions. Negen assists in providing the most advanced information in a precise manner to various sections of the healthcare industry, including patients, doctors, labs, and industrial personnel, enabling them to leverage their clinical acumen in a personalized manner."

Genomics

PATHOLOGY

- IHC (Immunohistochemistry)
- Flowcytometry
- LBC (Liquid Based Cytology)
- Histopathology

BIOCHEMISTRY

- Vitrios 5600 Advanced Dry Chemistry with Immunoassay
- Nephelometry - Siemens
- HPLC (High Performance Liquid Chromatography)

IMMUNOLOGY & CHROMATOGRAPHY

- Allergy Solution : Immuno CAP/Immuno
- Transplant Immunology
- Immunofixation Electrophoresis
- Immunofluorescence - Auto Immune Disorders

- Whole Exome Sequencing
- Reproductive Genomics
- Oncogenomics
- Pharmacogenomics
- Predictive Genomics
- Gut Microbiome
- Metabiomics
- DNA Microarray

Specialty Labs

"The human body is a marvel of biological complexity, with each component playing a crucial role in maintaining health and well-being. Understanding these complexities is essential for accurate diagnosis and effective treatment. This extremely complex yet delicately balanced human body ecosystem can be disturbed by minute variations caused by factors within or external. Negen Diagnostics' specialty labs are at the forefront of this effort, providing a range of advanced diagnostic services designed to meet the unique needs of every patient.

Each minute and hour are crucial when it comes to sick patient; by bringing all the world's best brands under single roof and staffing a dedicated team, Negen diagnostics ensures sophisticated molecular diagnostics, and advanced pathogen detection are delivered in exceptional time. Our commitment to precision and excellence ensures that every test we conduct delivers reliable and actionable results.

By exploring the fundamental processes at the molecular level, we offer a deeper understanding of various health conditions, paving the way for more effective treatments. We offer a comprehensive suite of molecular diagnostics, including advanced sequencing techniques, genetic variant analysis, and pathogen detection, thus taking part in building health with help of clinicians.
